

2024 Curated Posters Tours

This year the ASIA Research Committee has again organized a series of four curated posters tours. Each tour will feature three posters within a specific topical area. These small group guided sessions will include content expert tour guides as well as the curated poster author to share their work and engage in discussions with you.

The curated poster tour topics were selected based on the topic areas with the largest number of accepted posters.

If you are interested in joining a curated session, please meet at the entrance to the San Cristóbal A ballroom at the beginning of each poster session. The tour groups will begin five minutes following the start of each session.

Curated sessions Tuesday May 21, 2024 @ 2:15 PM will include the following topics:

- ❖ Accessibility/Public Health and Community Re-Integration and Participation
- ❖ Cardiovascular

Curated sessions Wednesday, May 22 @ 3:10 PM will include the following topics:

- ❖ Pain
- ❖ Rehabilitation / Rehabilitation Therapy

We are excited to offer these sessions and hope you will join us.

For any questions regarding the tours please feel free to reach out to any member of the curated poster sub-committee here at the meeting.
